

Science Undergraduate Laboratory Internships (SULI) Program

A U.S. National Laboratory Internship Opportunity from the Department of Energy

<https://science.osti.gov/wdts/suli>

Are you an undergraduate student or recent graduate pursuing a degree in science, technology, engineering, or math?

Do you want to develop and hone your research skills at a national laboratory while learning from some of our nation's best scientists and engineers?

Then the **Science Undergraduate Laboratory Internships (SULI)** program is for you. As a SULI participant, you'll gain valuable **hands-on research experience** and **build your professional network** while collaborating on an exciting project under the guidance of a mentor. You will also have opportunities to **present your research** to your mentors and peers, join in **social activities**, and engage in a variety of **professional development activities** to enhance your career skills.

The SULI program is sponsored and managed by the Department of Energy (DOE) / Office of Science's Workforce Development for Teachers and Scientists (WDTs) program in collaboration with 17 DOE national laboratories and facilities across the U.S.

Benefits

- \$600/week stipend
- Housing accommodations or housing allowance
- Round-trip travel reimbursement

Eligibility

- Must be a full-time undergraduate student or recent graduate of an associate's or bachelor's degree program at an accredited institution
- Must have completed at least one year as a matriculated undergraduate at the time of application (freshmen are not eligible)
- Must have a minimum cumulative undergraduate GPA of 3.0 on a 4.0 scale
- Must be at least 18 years old at the start of the internship
- Must be a U.S. citizen or legal permanent resident at the time of application
- Must possess medical insurance during the internship
- Students may participate in SULI twice and apply a maximum of three times

Interested in applying?

Go to <https://science.osti.gov/wdts/suli>

- Applications are accepted for three separate internship terms—Fall and Spring Terms are 16 weeks long and the Summer Term is 10 weeks long.
- During all terms, the internship is a full-time (40 hours/week) program.

About DOE: Science is about service—about a commitment to expanding human knowledge and discovery—and it can drive innovation, technology development, and economic progress. This commitment, coupled to unique, world-class capabilities, is what makes the DOE an indispensable pillar of America's leadership in science and technology. DOE is the nation's largest supporter of basic research in the physical sciences, the steward of 17 national laboratories, the operator of 27 scientific user facilities, and the lead federal agency supporting fundamental research for energy. The DOE laboratories comprise a preeminent federal research system, developing unique, often multidisciplinary, scientific capabilities beyond the scope of academic and industrial institutions, to benefit the Nation's researchers and national strategic priorities.
