

University Graduate Program

Our company vision is to amplify human potential. Our mission is to deliver enterprise a powerful tool for transformation—an augmented reality platform of great utility and simplicity. Achieving our goals requires passion and dedication. That’s why we’re committed to building and empowering a diverse team of incredibly talented people and fostering an inclusive culture through our values of unity, innovation, and user centricity.

Magic Leap is looking for PhD and Masters students to join our team for a 3 month Summer Program for Underrepresented Students in Engineering. In partnership with STEM departments at Historically Black Colleges and Universities (HBCUs), Hispanic Serving Institutions (HSIs), Women In Engineering Institutions, and broader universities we are committed to empowering and elevating diversity of thought, experience, and background in our workforce and in our pipeline of future researchers!
