President Harry S. Truman Fellowship in National Security Science and Engineering

Seeking Applicants!

Sandia National Laboratories is seeking applicants for the President Harry S. Truman Postdoctoral Fellowship in National Security Science and Engineering. Candidates for this position have solved a challenging scientific or engineering problem in their thesis work or to have provided a new approach or insight to a challenging problem, as evidenced by a recognized impact in their field.

The Fellowship provides the opportunity for new Ph.D. scientists and engineers to pursue independent research of their own choosing that supports Sandia's national security mission. The fellow is expected to foster creativity and to stimulate explorations at the forefront of science and technology and high-risk, potentially high-value research and development.

Sandia's research focus areas are: bioscience, computing and information science, engineering science, materials science, nanodevices and microsystems, radiation effects and high energy density physics, and geosciences. To learn more about additional R&D programs that support Sandia's mission areas, please visit: sandia.gov/missions

The Truman Fellowship is a three-year appointment. **Deadline: November 1st, 2022, 5PM, Mountain Daylight Time and the fellowship will begin on October 1st, 2023.**

Requirements:

We invite applications from talented researchers who have:

- PhD conferred within the past three years at the time of application or completion of PhD requirements by commencement of appointment
- Development and submission of a compelling research proposal in areas meaningful to national security
- Ability to obtain and maintain a DOE security clearance, which requires US citizenship
